

## Technical Data YSTRAL Conti-TDS

<b>Power</b>	5,5 – 250 kW
<b>Voltage</b>	230 / 400 / 500 V, 50 Hz, special voltages possible
<b>Speed</b>	1.500 / 3.000 min <sup>-1</sup> , Infinitely variable speed up to 3.600 min <sup>-1</sup> with a frequency converter
<b>Dispersing chamber</b>	stainless steel 1.4404 (AISI 316 L), special materials, tools exchangeable, fast clamping system
<b>Flow rate for liquids</b>	10 - 200 m <sup>3</sup> /h
<b>Induction speed</b>	for powders up to 24 t/h
<b>Maximal viscosity</b>	200.000 mPas (depending on size and use of the machine)
<b>Seal</b>	configuration depending on operational conditions
<b>Options</b>	explosion proof execution, certifications, qualifications
